

Celebrating Success

Mr. Michael St. Pierre
Indiana Masonic Home
Foundation Board Treasurer

Mr. St Pierre chose Compass Park for rehabilitation after suffering a stroke.

"My time in therapy was a success. Mark, my speech therapist, did a really good job explaining my treatment. He even brought in an anatomy book so I could see what muscles he was working on to improve my swallow. The therapists all did a great job and were very thorough. They took the time to explain the treatment needed and how that would benefit me. I would recommend the therapy at Indiana Masonic Home without a doubt."

"Mr. St. Pierre's treatment included Vital Stim Therapy to stimulate swallow function and improve the overall efficacy of therapeutic exercise. I have been certified in Vital Stim therapy for 10 years and find it to be very effective in treatment and reduces the amount of treatment time needed for my patients. I specialize in swallowing disorders and can evaluate individuals who are experiencing problems eating and drinking. Vital Stim Therapy is a safe and effective treatment for patients suffering with difficulty swallowing or dysphagia."

– Mark Meyer, Speech Language Pathologist, Certified Vital Stim Provider
